

Reference Material Certificate

This reference material was manufactured to stringent quality control procedures at ISO 9001:2015 certified facilities.

Product Information

Product	Description	Batch
SA9004-0	Reference Fluid Base	2307010001

Intended use

ASTM D8073, IP 624

Details

WSI	97.5 to 100.0
Description	Clay treated jet fuel
Traceability	Prepared in accordance with ASTM D8073 Appendix X1
Sample size	500 mL
Validity	12 months from first use
Storage	Store in a cool place away from direct sunlight.
Instructions for handling and use	It is the responsibility of the user of this verification material to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use. Consult test methods for correct use.
Description of material	100 % AVTUR
Health and Safety Information	Wear appropriate PPE. Consult SDS for further information.
Signatory	
Signatory function	Quality Manager
